Dear Dennis,

I just wanted give you a personal review of Marian Linton and her work in providing us with accounting services for our firm.

Marian was *instrumental* to the smooth transition of our accounting system from our old company to our new independent firm! Her knowledge and expertise of Quickbooks and her extremely organizational skills has helped me to establish internal controls and required financial statements in a timely manner. She has taken further steps to understand our line of business and our billing software that we use in conjunction with Quickbooks to create a seamless way of providing reports needed for the owners of the firm.

With over 5 years success that I've had in having an efficient accounting system for our firm is due to Marian's consulting and mentoring.

I'd be lost without her!

Sincerely,
