2006 SBA Financial Services Champion Award
Support Letter for Dennis Piper

To Whom It May Concern:

As an Owner and General Manager of Audio Innovators, Inc. dba Pro-Com Systems, I would like to extend this letter of support for Dennis Piper and Dennis Piper & Associates.

We are a high technology company and were in business in the Pittsburgh Area for over 33 years. In 2003 we determined that we required greater financial and accounting support as well as the need for Quickbooks software professionals. Through various contacts and referrals, we started working with Dennis and his company and the relationship was one of well deserved trust and professionalism. The experience was overall an excellent one.

In 2005 we sold our company and Dennis played a key role in making the transition. We continue to rely on Dennis's accounting expertise on a privately owned LLC and personal accounts. We look forward to many years of continued partnership and services and would recommend him highly to any other Corporation or private individual.

Sincerely,

Moira Cleary
General Manager
